

# DOVISTA to invest 150 million NOK in Natre's production in Gjøvik

***Natre, one of Norway's leading manufacturers of windows and doors, is to receive a significant investment for its production site in Gjøvik.***

Based on the recent consolidation of production in Norway, the next natural step is now introduced. A 150 million NOK investment is on its way to modernise Natre's production site to state of the art.

The Natre production facilities will be optimised to ensure efficiency, creating a sustainable workplace within the local environment and continue to serve our customers in the best possible way.

Allan Lindhard Jørgensen, CEO of DOVISTA, says, *"The decision to upgrade Natre's production facilities is a step towards greater efficiency and enhanced competitiveness. By streamlining our operations, we can better serve our customers."*

The decision to invest has been taken with a focus on safeguarding Natre's long-term competitiveness in the market and enable growth and innovation. This reflects Natre and DOVISTA's commitment to providing top-of-the-line products to their customers.

Allan Lindhard Jørgensen further adds, *"The investment will future-proof our production site in Norway and we are confident that this change will benefit both DOVISTA and Natre in the long run."*

Natre remains dedicated to providing high-quality windows and doors while adapting to evolving market dynamics. The strategic move of investing in the Natre, Gjøvik factory reinforces the company's obligation to serving its customers, employees, and stakeholders.
